

# - A brave new world - for brave new people

**The future is written as the language of the people.**

coding for the future

**The future is written as a Code, the people's code, a code expressing their need for constant change.**

**It is written in the language of innovation.**

**We speak that language, we understand that code.**

**We were born in the future.**

*We see possibility where others see improbability.*

**mobiik** is born from innovation and the future, these are carried in the brand's DNA. Our essence is our human talent, our company's most valuable asset.

**Problem-solvers by nature: thinking differently is what moves us.**

**mobiik** advisors are always on the side of chance. We are innovative people, we have experience, we have knowledge.

**We do, We create, We invent.**

**UX/UI:**

Using methodologies such as design thinking, sprint design, or Cooper, we design stunning applications focused on solving the needs, and motivations of the end user, with the stakeholders' objectives, and available technologies in mind. Always with mindset of **"LESS IS MORE"**.

**Software development:**

Through agile methodologies we develop:

- Web Applications
- Serverless solutions
- Middleware
- Mobile Apps
- Low Code Apps

**Microservices & Micro frontends**

We can design and implement Architectures for the most complex and highly transactional systems using:

- Docker
- Azure Kubernetes Services
- RedHat OpenShift
- Azure RedHat OpenShift
- Amazon Elastic Kubernetes Services

**Cloud Manage Services**

- Azure & AWS Platform Management
- Infrastructure and application monitoring
- Cloud Analytics
- Application maintenance, improvements and remediation

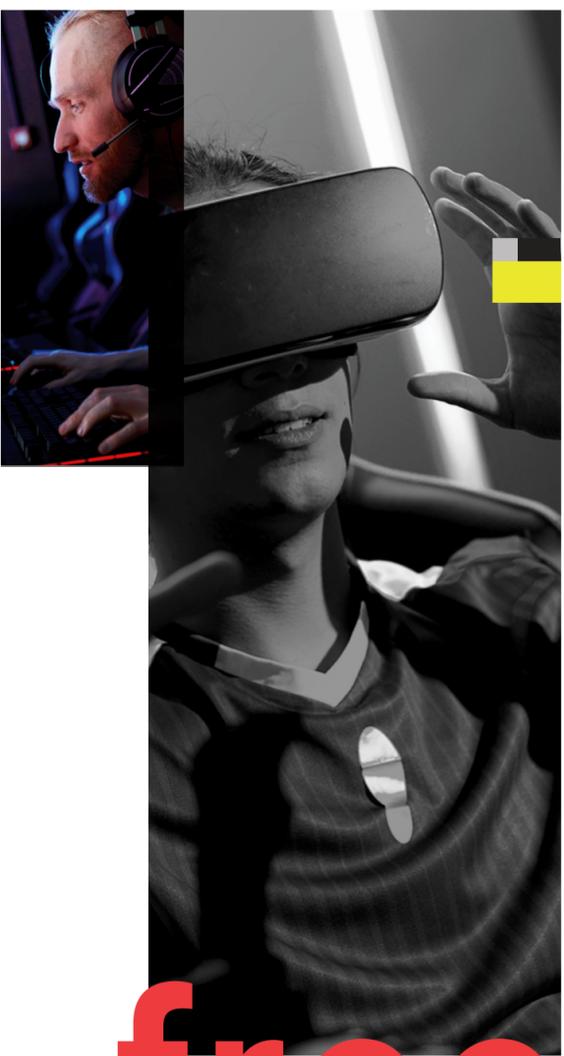

**Data & AI:**

- Data Lakes
- Data Engineering Data Architecture
- Data Visualization and Big Data
- Data Science
- Machine Learning
- RPA's

**DevOPS:**

- Implementation (Azure, AWS or hybrid systems)
- Operations (Azure, AWS or hybrid systems)

Our workforce is highly skilled, this represents a top priority for **mobiik**. Our process is designed to constantly develop, strengthen, and evaluate the abilities of each and every one of our team members.

**We are world leaders in management of highly skilled teams. We believe in our people.**

**We do not offer jobs, we offer purpose, friends, ideas, adventure, creation, growth, and the possibility of change.**

**Of belonging to a tribe.**

**Technology is our domain.**

**We are a source of talent- only the very best, the curious, the inciters, and the solvers come here.**

**The right team with the right experience.**

**mobiik** offers flexible schemes for incorporating high-level tech equipment. No matter what the project or challenge is, we know that the level of performance, efficiency, and outcomes of our people is vital.

**We are committed to our clients' objectives through and through. We are true business partners.**

**We build success stories.**

*"We now have a platform that has changed the direction of our business"*

*"Finally, we developed a tool that had previously seemed impossible"*

*"We activated channels that broke new ground in our industry, bringing us closer to our clients and suppliers"*

*"They created what used to be thought of as impossible. A solution that changed the way that national revenue is collected"*

*"The talent that was brought into our techn world- not only, a level which had never been"*

*"mobiik made our cashier's work easier by simplifying both the payment and the inventory systems"*

**-Leave the crowd join the main stage.**

We develop solutions to transform the organizations with technology, thinking and innovation.

**"We believe in ideas and in the people who make them possible. Technology and innovation have no limits"**

Leonardo Solís CEO & Founder **mobiik**

**- Every revolution is an idea - Start a revolution**
